### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The applicants have two claims 34 present in the claim set. The examiner is renumbering the second claim 34 and subsequent claims under 37 CFR 1.126.

Please renumber "claim 34" (second occurrence) to "claim 35".

Change existing "claim 35" to "claim 36".

Change existing "claim 36" to "claim 37".

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach and/or suggest an arrangement of a structural element within the electrolysis cell lining that is plate shaped and made out of a material resistant to a corrosive environment in the cell that has a system of ducts within the structural element and integral with the structural element, with the ducts being arranged for flow through of medium and designed to act as a control mechanism for the side layers thickness and for heat transfer through the cell lining, with the ducts being connected to an outer circuit. The closest prior art of record to Holmen does not teach and/or suggest the inclusion of the ducts within the structural element of the side

lining. If one looks at the figures 1 and 2 of Holmen, it can be seen that the side wall lining of the Holmen patent does not have any duct work within the sidewall but instead is in back of the sidewall lining and the ducting is coolant is not in direct contact with the cell or cell lining as it is in the applicants instant invention. Therefore, the prior art of record does not teach and/or suggest the instant invention as provided for in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce F. Bell whose telephone number is 571-272-1296. The examiner can normally be reached on Monday-Friday 6:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
